ENJOY !!

Once upon a time in a beautiful valley far, far away was a peaceful village. Everything and everyone lived in perfect harmony. The friendly villagers were always happy and full of smiles.

Until one day...

A fierce fire breathing dragon flew across the sky high above the village. As it roared, flames shot out its mouth. The dragon flapped its wings, soared even higher into the sky and then landed on the top of a nearby mountain. At the top of the mountain was a deep, dark cave that the dragon wanted to use as its lair.

The dragon saw the happy villagers living together in harmony. He was jealous. "I will burn down your village!" he roared. The villagers were terrified! "What shall we do? Who can help us?" they cried.

ABOUT THE AUTHOR

Iker Burguera (Legazpi, 1986) is a Senior Software Engineer and entrepreneur, holding an advanced degree in Telecommunications Engineering from Mondragon University and having completed his Master's thesis at Linköping University (Sweden).

His professional background focuses on the development of artificial intelligence, augmented reality, and virtual reality, with a clear orientation toward building innovative technological products. Committed to open-source principles, he combines technical rigor with strategic vision, driving projects grounded in emerging technologies and advanced architectures.
